TRIPLE SANITIZATION

- ▲ BioZone UV, Ozone Air Steriliser
- ▲ Automatic Bio Hand Sanitizer
- ▲ Bio Hand Drier

BioZone UV, Ozone Air Steriliser - Benefits.

- Destroys viruses including Coronavirus COVID-19, Influenza, H1N1, H5N1 + E.Coli, Salmonella and Streptococcus - destroys 99.999% of bacteria in the air and viruses on surfaces.
- Creates a fresh-smelling environment that is pleasant to use by removing odour-causing airborne and surface bacteria.
- Protects users by promoting an hygienic environment that is free of viruses, mould and fungi.
- Environmentally friendly - reduces the need for chemical solutions to control bad odours, e.g. air freshener sprays or harsh chemical cleaners.
- Equivalent to a 16-watt low-energy light bulb, reduces energy cost.
- Enhanced user experience - increases overall customer and employee satisfaction.
- Completely automated and chemical-free - uses UV light and photo-catalytic oxidation only.
- No filters to clean, maintenance free – requires simple annual UV lamp replacement.

Certified results

- 70% reduction of micro-organisms in air (University College Dublin)
- Destroys human flu virus (World Health Organisation)
- 100% improvement in air quality (SARL AFR)

Automatic Bio Hand Sanitizer

- Bulk Fill - Works with almost all alcohol sanitizer gel. Just open and pour gel into reservoir
- Suitable for all liquid soaps and hand sanitisers.
- Tamper Proof and lockable.
- 1100ml Capacity.
- Battery Life up to 130,000 Cycles!
- Requires AA batteries.
- No Touch Operation.

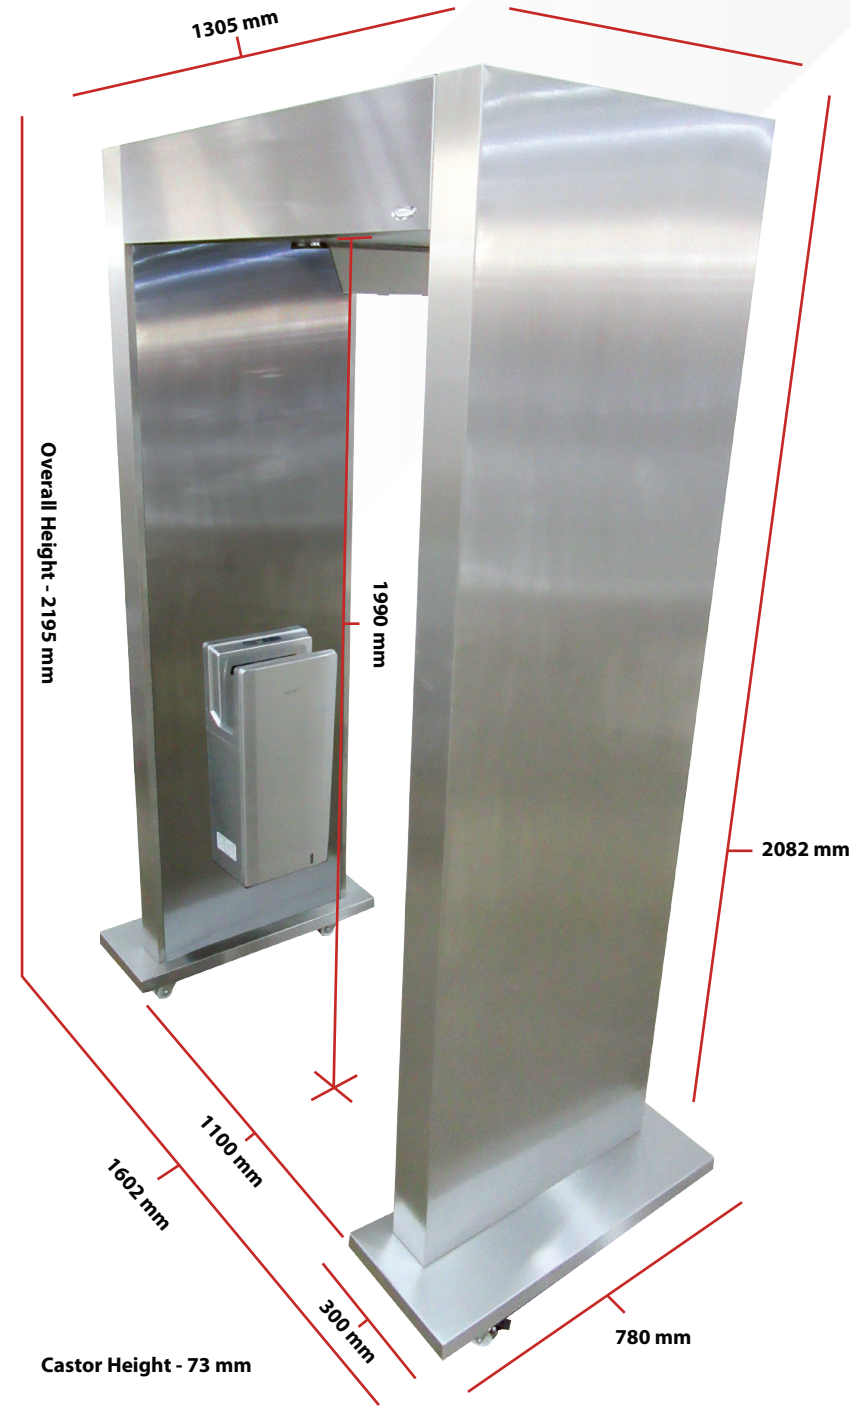

Bio Hand Drier

- Brush-less motor The Biodrier Business is based on a simple yet powerful idea - Using the heat from its own motor to provide the hot air used to dry the user's hands. The brush-less motor saves energy as it consumes only 850 watts of power. This means it uses much less power than conventional hot air hand dryers, saving you money and reducing your carbon footprint.
- The Biodrier Business uses a high speed brush-less motor to create a jet airflow that will dry your hands within 10 seconds. It also adopts CPU control technology with a wide LCD display. A timer on the LCD screen counts down the time to dry your hands and will stop automatically at the end.
- It is unbelievably quiet and it produces a natural air fresh aroma that is both refreshing and relaxing.
- The design of the Biodrier Business is ergonomic, stylish and elegant in its finish.
- Benefits to the environment The Biodrier Business is better for the environment thanks to its power saving technology, consuming only 1/7 of power compared to conventional dryers. It uses the heat from its own motor to produce the hot air need for drying hands.

Specification Construction

- ▲ Constructed from 1.2g 304 grade stainless steel.
- ▲ Inner panels non bacteria holding composite panel with easy wipe surface.
- ▲ Heavy duty castors with brakes
- ▲ Weight 120kg (approx)
- ▲ Overall size 1602W X 720D X 2195H
- ▲ Electrical supply 240v 50hz 220 / 230
- ▲ Can be supplied with either 13amp 3 pin plug or euro plug.

Measurement Details

Additional Options :

- Thermal Camera ▲
- Metal detector ▲
- Moisturising Dispenser
- QR Code Reader ▲
- Security Alaram ▲
